---

**Before using MANI Polishers and Finishers, see the instruction below.**

- For dental use only.
- Non-stick.
- Insert the shank into the handpiece according to the instruction of the handpiece manufacturer. Insertion should be the full length.
- Avoid any damage to the instruments to make sure there is no deformation. Do not use the instruments if deformed or bent.
- Handle with care not to put excessive load.
- Use below max. allowable rpm of each instrument to avoid the possibility of being injured due to breakage.
- Avoid bending, twisting, or excessive pressure on the instruments during use.
- Wear safety glasses and/or face mask to protect from being injured.
- Do not store the instruments in hot or humid environment.
- Dispose the used instruments using appropriate medical waste methods.

All rights reserved. The instruments are subject to change. We reserve the right to modify our range of instruments and their design as well as to deviate from the illustrations and data shown.
